INTRODUCTION

The 3CX Distribution Suite has three business portals.

- 1. The Admin portal
- 2. The Master portal
- 3. The CMS portal

The Admin portal helps with the management of the master and the CMS portals. The Master portal helps in customer and invoice management and overall license management, and the CMS portal is responsible for placing orders and helps in customer license management for the 3CX license.

Below we have the user manual for the CMS Portal:

 Enter your credentials (username and password) and click the LOG IN Button to log into your CMS Portal

2. You reach your home page, the dashboard page, which gives us the overall statistics of referrals, invoices and license keys. You can opt to view and remove information on referral payments and monthly payments and bank information for local, international and online payments.
